Recapping 2009: It was a year to remember! Several groups rallied at the RV Resort and are rescheduling for this season. The fishing was the best in 10 years and the crabbing was excellent as usual. Improvements to Salmon Harbor Marina's East Boat Launch were completed, creating easier access with much improved, paved and striped boat trailer parking! Our new Upland Fuel Station with non-ethanol fuel is available and ready to fill your vehicles as well as your boats and ATVs. Plus a myriad of future plans to improve Salmon Harbor even more are currently being considered! We will keep you posted as these new improved services and amenities become available. So stay tuned!!

Our WiFi As all of our regular customers know, our WiFi system has had some serious deficiencies, to say the least. However, the comments with suggestions received by our patrons helped us to determine the correct approach and fix to get this system operating properly. It took some time to do this, but we wanted to be sure we had the proper fix, not just slap something together or pay an arm and a leg, as they say, just to wind up with the same issues. The work to get the system functioning properly has been done, and it has been working without any glitches for two months now. With that said, we cannot guarantee 100% connectivity 100% of the time; no one can. We will continue to improve on it even more by adding additional access points around the Harbor we have all come to love. Once again, thanks to all our customers and the professionals in the field of wireless communications, the Winchester Bay RV Resort has a functioning WiFi.

Resort Quote of the Month "Yesterday is history. Tomorrow is a mystery. And today? Today is a gift. That's why we call it the present."

- Babatunde Olatunji
